

## Kirstin Taylor

Account Administrator

Kirstin Taylor serves as the Account Administrator for Astyra, where she provides general support to the Account Management Department. Some of her responsibilities include maintaining relationships with our diverse portfolio of clients, recognizing growth opportunities, and being a liaison between client and candidates.

While studying Mathematical Sciences at VCU, Kirstin began working in the local restaurant industry, a career she continued to pursue in lieu of completing a traditional degree path. This decision led to her becoming a General Manager for one of Richmond's most prestigious restaurant groups, a position she maintained for the better part of three years.

This decade-long career provided her strong interpersonal skills, a drive for success, and the ability to thrive under pressure—skills she is excited to bring into her new career at Astyra.

In her spare time, Kirstin enjoys watching sports, reading, traveling, and spending time with her friends and family, most notably her three cats, Xavier, Severus, and Anakin, and her dog, Kylo.
